x	No fiscal impact	

The City has cut brush remaining in Pinky's Park, an industrial size wood chipper would allow the City's property maintenance crew to effectively breakdown the shrubs left in the park while also providing ground cover where the trees once were as well as other low-lying areas around the park.

Once there is a cost estimate, Administration should then facilitate the renting of a wood chipper at which point there will be a budget impact which may or may not result in the need of a budget modification.
